About MSL Captive Solutions, Inc

MSL Captive Solutions (MSL) is the industry's only platform devoted exclusively to the development of comprehensive (re)insurance solutions for medical stop-loss captives. We are an independent underwriting firm and work with select program managers, brokers, and captive managers to build proprietary group and single-parent captive programs. We provide outsourced stop-loss captive underwriting management to some of the world's leading stop loss carriers and can develop customized captive programs with each carrier. Every captive program is highly tailored to meet the specific risk, financial and competitive market positioning objectives of our clients. The exclusivity of our carrier relationships and our limitation to select production partnerships will minimize the potential for distribution channel conflicts and significantly enhance the group captive's market identity and competitive positioning.
